

A large, stylized red shape, resembling a partial circle or a thick curved line, is positioned in the top left corner of the page.

The Caresfield Roadmap for Headache-Free Conversion

You no longer have to wait for weeks on end while your supplier spends time searching the internet and emailing you back-and-forth with questions about the products you need, only to give you an incomplete cross-reference document months later. At Caresfield, we've developed a conversion process for our labels and identification products that not only removes any burden from your organization, but that has been proven to be accurate and fast, time and time again. Caresfield has developed conversion kits to make the process simple. Request yours today!

conversion

How Does the Caresfield Process Work?

caresfield™

DAY 1: Conversion Kit

Your Caresfield Account Manager will send a conversion kit with step-by-step information needed to cross-reference your most-used label and identification products. Just send us your info and we'll do all the work!

DAY 2: Mail Completed Kit

Mail back your samples with a prepaid FedEx label included in every kit. We will thoroughly cross-reference your collected samples with our catalog. Having samples in-hand eliminates guesswork, so we can match items quickly and accurately.

DAY 14: Proposal

We will provide a comprehensive cross-reference and proposal for the products that constitute 90% of your spend. Don't worry, we will cross-reference your remaining items at a later time.

DAY 21: Evaluation

You will receive samples for testing and evaluation and we will follow up to confirm they will work for your needs.

DAY 35: Set-Up

Our dedicated Customer Service Team will create an account for you and let you know when you are set up for ordering. All in-stock orders placed before 2:00pm central time ship same day!

DAY 35 & On: Support

With your most-used products converted, we will go back and accurately cross-reference your remaining items. Caresfield is always available by phone, email or for on-site support any time you need us!
